FOREIGN BUYING WAS A FACTOR IN WALL STREET YESTERDAY,

And Though the Market Closed Heavy an Advance Was Recorded-Local Grain Market Active.

At New York yesterday money on call was easy at 1011/2 per cent.; the last loan being made at 11/2; closing offered at 11/4. Prime mercantile paper, 2% 64% per cent. Sterling exchange quiet but firm, with actual business in bankers' bills at \$4.88%@ 1.88% for demand and at \$4.87%@4.87% for sixty days; posted rates, \$4.88% and \$4.89%; commercial bills, \$4.861/2.

Silver certificates, 60c bid. Bar silver closed at 59% per ounce; Mexican dollars, 48%c, At London bar silver closed at

The total sales of stocks were 141,961 Cares, including American Sugar, 31,900; Burlington, 5,609; Chicago Gas, 18,100; Distilling and Cattle-feeding Company, 2,800; General Electric, 3,500; Louisville & Nashville, 3,100; Missouri Pacific, 13,400; New Jersey Central, 14,100; Northwestern, 3,100; St. Paul, 15,400.

The declaration of the regular quarterly dividends of 11/2 per cent. in Chicago Gas and 1½ per cent. in New Jersey Central, while not entirely unexpected, were factors for strength in these stocks individually and helped to strengthen the general market. Another favorable influence was the good market for American securities on the London Stock Exchange, which had moved prices up so that arbitrage buying was possible at a profit. This foreign buying, supplemented by purchasing by local traders, imparted a strong tone to the opening dealings. A sharp covering demand in Chicago Gas sent that stock up 2 per cent, to 75, the general list only moving up a fraction. A slight reaction occurred around 11 o'clock, but toward noon speculation again took an upward tura, New Jersey Central leading with a gain of 3½ per cent, on heavy buying induced by the announcement that the regular dividend had been declared. There has been large short sales last week in this stock and consequent there was a rush to cover which made it guite interesting for a time. When the demand for the shares ceased there was a reaction of 1 per cent. Missouri Pacific about the same time fell off 1½ per cent, from the highest price of the morning and the general market lost a fraction. Toward 2 o'clock the grading assumed a strong tone, New Jersey entral selling up 2 per cent, rallying and receding ¼, making the gain on the day 3¾ per cent.

In the late dealings the entire market gave way a fraction and the market closed heavy, but in most instances at an advance on Saturday's final sales of ¼a3½ per cent.

In the late dealings the entire market gave way a fraction and the market closed heavy, but in most instances at an advance on Saturday's final sales of ¼a3½ per cent.

The other more important gains are American Tobacco, 1½; Louisville & New Albany preferred, 1½; United States Leather, 1%; Erie Telegraph, 1½; Sugar and Manhattan, 7½, and Chicago Gas and Southern preferred, 4½. The grangers are up ½a5½ per cent., the latter, St. Paul, which was the only real active member of the group. Among the few shares which show declines on and 1% per cent, in New Jersey Central, while not entirely unexpected, were factors

Distilling. 1/8 per cent.

The bond market was strong and moderately active throughout the day. The sales aggregated \$555,000. Government bonds were firm; State bonds dull.

lanker Kelly's Reason for Making No

Provisions for His Youngest Son. NEW YORK, Jan. 7 .- The fact that Euene Kelly, the millionaire banker, left no provision in his will for his youngest son, Robert, has been the occasion of much gossip. The World says: "There is not the faintest chance that Robert will contest his father's will. He is perfectly satisfied with the arrangement. He has been heard to say that nothing could have pleased him better. Some have intimated that Eugene Kelly executed his will while angered at Robert for the moment and did not change it. Such is not the case. Frederick H. Coudert, Mr. Kelly's lawyer, said: 'Robert Coudert, Mr. Kelly's lawyer, sald: 'Robert was disinherited, if such be the term, on account of the great love that the father bore toward his son. He had pondered on the question and had decided that it would be for his son's best interests to leave him nothing directly. Of course, Robert will not starve. He will continue to live with his mother and brothers. Robert was present and was, I believe, the last one that his father recognized. His father thought the world of him. The family is firmly united by bonds of love. I can only reiterate that what has been done was done in the judgwhat has been done was done in the judg-ment of Mr. Kelly for his son's best interest.' Mrs. Kelly, it is said, knew at the time the will was drawn of Robert's name having been left out, and agreed with her husband that it was for the boy's good. If this be so, Robert may acquire a legacy greater than those of his brothers."

ALL MARKETS LOWER

FREE SELLING OF WHEAT CAUSED A BREAK AT CHICAGO.

May Closed 1-2c Lower, May Corn 3-8c and May Oats 3-Se, Despite the Fact the News Was Bullish.

CHICAGO, Jan. 7.-Despite the fact there was much bullish news to-day holders of wheat were anxious to sell, and, led by New York speculators, dumped their grain on the market in large lots. As a consequence May closed 1/2c lower. May corn closed %c lower, May oats %c lower and provisions finished with but little change. Wheat began with signs of abatement in the demand compared with that prevailing at the close on Saturday. The majority had May wheat for sale at 5814c, when the market opened and continued to press it for about twenty minutes, at which time it had declined to 581/60581/4c. It was the impression at that time that the visible supply would show a decrease of not to exceed 250,000 bushels. When New York stocks, which it had been assured would show a decrease of 500,000 bushels, proved to have fallen off nearly 900,000 bushels since Monday last, the business had more spirit in it and the market recovered its early loss. Other news, statistical and otherwise, was of a mixed character, but, on the whole, more favorable to the buying than to the selling side of the market. The chief exselling side of the market. ception was the heavy Russian shipments and as the visible began to give further inand as the visible began to give further indications of decreasing to a heavier extent than had been expected, the market stiffened, May advancing to 58%c. The visible showed a decrease of 675,000 bushels, but the New York speculators sold heavily, causing a reaction. May closed at 58c. Corn was quiet and averaged weak, influenced a good deal by the general weakness in wheat. At times when wheat was strong, corn showed some vim, but the selling was pretty free as a rule and the tendency downward. May sold at 47%c at the opening, fell to 471/2/47%c, went up to 48c, then off to 47%c at noon. The market turned weak during the last hour in sympathy with wheat, and May sold to 471/2c, closing at that price. Oats were quite active yet the feeling was easy and prices fell off, partly due to sympathy with corn, and helped considerably by free offerings, with a slack disposition to buy. May started at 31c, sold off to 30%c, up to 31%c, and back to 30%c, where it closed. closing at that price.

Provisions started easy on the heavy ccipts of live hogs. Trade was dull. When it was learned that the quality of the hog receipts was poor, a reaction from the low prices occurred and May pork closed unchanged. Mary lard closed 2½c higher and May ribs unchanged, Leading futures ranged as follows.

THE INDIANAPOLIS

JOURNAL

Daily, Sunday and Weekly

The Journal is first of all a newspaper. Its primary object is to publish the news, and to procure this it spares no pains or expense. Besides the service of the Associated Press, which covers foreign countries as well as the entire United States, it has a corps of correspondents, who give att ...on to those events and o6currences that are likely to be of particular interest to the Indiana public.

Its Washington Bureau

Was established for the purpose of looking after matters in which the State and its people are concerned, and is under the management of a gentleman well acquainted with the local business and political issues.

It has a correspondent in every town of importance in the State, and is constantly increasing its facilities for obtaining information from every quarter.

Its staff of city reporters is large. and its local departments are unexcelled. As a newspaper it is far better equipped than any other in the State, and welcomes comparison with its contemporaries in any and all of its departments. With all, it endeavors to be accurate and trustworthy, printing the news, whatever it may be, without personal or partisan bias.

THE SUNDAY

Is a paper that gives more attention to miscellaneous literature than the other editions, and contains in its sixteen, and often twenty, pages a variety of choice reading matter that satisfies the most exacting taste.

The Indiana State Journal

(Weekly Edition) is a large 56-column paper, carefully edited, with a special view to the wants of Indiana readers, both in its general and political news. Its subscription price, \$1.00, with reduction to clubs, places it within the reach of all, and no campaign contribution can be so effective as when spent in furnishing this paper to readers who need Republican doctrine.
